Descriptive Writing Sheet

One World, One Responsibility New World Today

No one is perfect. Every uncivilised thing done by us has negative impact on nation while every civilised thought adds ameliorates the development to the civilised world. Earlier, harmful acts done in a country would fall flat on other countries. The scenario is different today. Now, we live in a new world where new thinking has connected the whole world.

N.B.:

① Write "has a negative impact on the nation and the whole world."

② "Negative impact" weakens the original idea of "bringing suffering".

③ Never omit "noble deed".

④ Never omit this important point:—
"different parts of the same country".

⑤ Last line must be meaningful.

⑥ you changed the author's emphasis from 'One world' to 'New World'.
